Information and required conduct

Thank you for volunteering at our school!

This handbook is designed to give you all the information needed to help us maintain a safe environment for you, other volunteers, our staff and students. If you have any questions please do not hesitate to contact the Principal or Assistant Principals on 9314 7714, or yarraville.west.ps@education.vic.gov.au

All volunteers must take reasonable care for their own health, safety and wellbeing and that of others who may be affected by their actions or omissions while volunteering. They must also abide by the school's Code of Conduct and Volunteers Policy while on site, as well as any relevant policies that may apply to the work they're undertaking for the school.

Volunteers must also report any problems, hazards or incidents to the principal or their delegate and dress appropriately including wearing any suitable personal protective equipment.

Please review our policies <https://www.ywps.vic.edu.au/page/5/School-Policies> to ensure you understand the volunteer requirements for our school:

- Volunteers Policy
- Child Safety Code of Conduct
- Child Safety Induction Pack – Volunteers

Access arrangements

All volunteers must report to the general office or site contact and sign in upon arrival at the workplace or designated point where not on department premises. This requirement is indicated on signage located at all entrances to the school, see below

All volunteers must report to the school office to sign in, and again when finished, to sign out. You must wear your Working with children card at all times when volunteering. This helps us to know who is authorised to be in the school, or assisting with a school activity, at any time. If you don't have a lanyard, we can provide you with one.

When working in a learning-related activity, volunteers do so with the understanding that their role is to support the teachers and the school's program. Volunteers must follow these guidelines to ensure a successful experience for all.

Please:

- Do not pass opinions on such matters as classroom management
- Avoid comparing children and their work. All children learn at different rates and have different strengths and growth needs.
- Give all children equal time and attention where possible.
- Encourage children to be independent – we expect children to try everything themselves before we help them.
- Be aware that you may not be working with your own child.
- Do not try to lift, carry or move a child in any way.
- Tell the classroom teacher if a child raises a matter that concerns you.
- Be aware that unforeseeable events may mean a timetable change for the class at short notice, and therefore classroom help may not be required.

Confidentiality is essential for all Volunteers. You may see children struggling with work or becoming upset. You might also hear/see other information concerning a child while you are helping. It is vital that you do not share anything about specific children other than with the classroom teacher. The responsibility for informing parents of any concerns about a child remains with the school. (see Information Privacy Act 2000)

Site specific hazards

NIL

Asbestos

All schools are expected to have a Schools Asbestos Management Plan in the event of the discovery of suspected asbestos containing material (ACM) or the accidental disturbance of existing ACM.

If ACM has been identified in the school, the following process must be followed prior to the commencement of works:

- if work is to be carried out in the vicinity of Asbestos Containing Material, the Asbestos Coordinator Karen Rush ph 9314 7714 must be consulted prior to the commencement of work.

You must complete a Safe Work Method Statement (and have this signed as sighted by the principal or their delegate) to outline the control methods you will use to ensure that the risks of the hazardous substances and/or dangerous goods are managed.

Such controls may include, but are not limited to:

- the provision of Safety Data Sheets (SDS)
- correct labelling of containers
- correct storing and handling of containers
